DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chadwick A. Jackson (Reg. No. 46,495) on 1 September 2005.

The application has been amended as follows:

Claims 1, 29, 58, 89, line 1, --computer-implemented—has been inserted before "method".

Claims 58, line 13 and claim 89, line 12, --the intermediate filter condition,--has been inserted after "fulfilling".

Claims 1, 29, 46, 47, 56-108 renumbered as 1-57 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or make obvious obtaining desired relationships among objects represented in a database by filtering queries including a first geometry and a desired relationship between the first geometry and a second geometry through a primary filter, an intermediate filter and a secondary filter, in combination with all the limitations recited in claims 1, 29, 46, 47, 56-58, 89. The closest prior art of record Barbara et al provided by the applicant uses query rectangles and processes the query

through multiple stages but does not use the specific algorithm recited by applicant in claims 1, 29, 46, 47, 56-58, 89 in determining what to include into or exclude from the final query result.

Claims 59-88, 90-108 being further limiting and definite are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
